ABOUT US

STEELTECH is one of the leading steel manufacturing mills in Syria specialized in hot rolling.

The plant is strategically located in the Adra Industrial Zone 30 km north-east of Damascus positioning it at the heart of the country's industrial and infrastructure development.

Construction of the facility commenced in early 2007 and production was launched at the end of 2009.

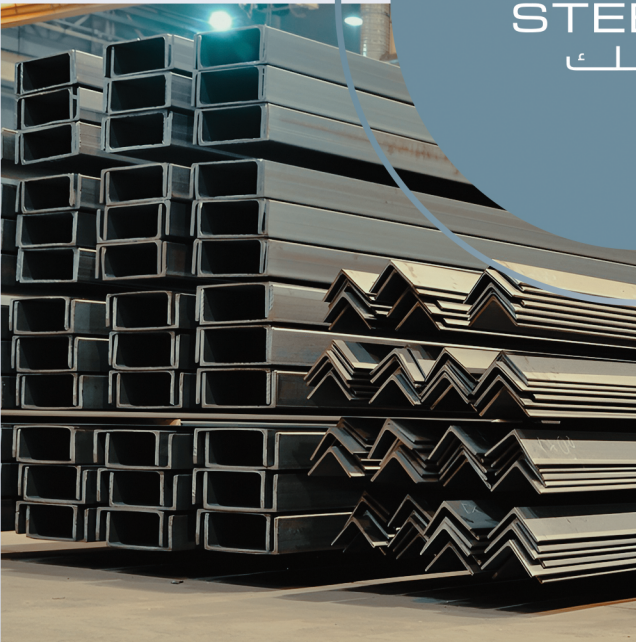

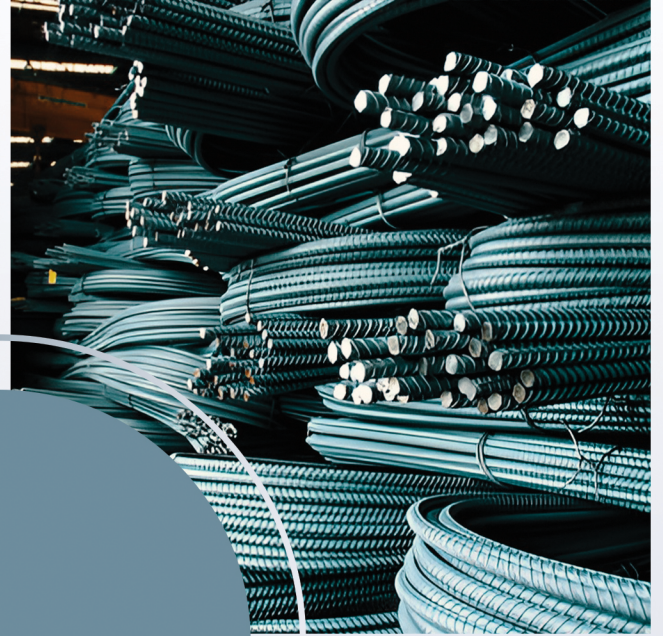

In early 2012, operations were suspended in light of prevailing circumstances.

STEELTECH is now set to resume production in Q4 2025.

With a renewed commitment to operational excellence, innovation, and quality, we are focused on contributing to the reconstruction and growth of Syria.
